PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 4 years of experience (Jan 2022 – Aug 2026) designing, architecting, and deploying resilient production web applications and distributed backend architectures at Afro Digital Innovation Labs. Expert across the TypeScript/JavaScript ecosystem (Next.js, React, NestJS, Node.js), Python, PostgreSQL, and distributed job queues with Redis and BullMQ. Proven track record of turning complex operational bottlenecks into fast, secure, and human-centered software.

FEATURED PROJECTS

Tibeb Telehealth — Virtual Care Platform (tele.tibeb.et) **2026**

Full-Stack Developer · Next.js, NestJS, PostgreSQL, Redis, Tailwind CSS, Chapa

- Built an on-demand telemedicine platform connecting patients across Ethiopia with verified medical doctors via live video and encrypted chat.
- Implemented doctor credentialing, appointment triage with sub-10 minute response times, digital prescriptions, and Chapa payments.

YeneSchool — Unified School Administration System (yeneschool.me) **2025 – 2026**

Full-Stack Developer · Next.js, NestJS, Redis, BullMQ, PostgreSQL, Tailwind, Shadcn UI

- Architected a multi-tenant school ERP centralizing student records, academic grade tracking, fee collections, and staff scheduling.
- Automated report card generation and billing notifications using BullMQ worker queues, saving administrative staff hours weekly.

Fenaid — Disability Care Coordination Platform **2025**

Full-Stack Developer · NestJS, Next.js, PostgreSQL, BullMQ, Tailwind CSS

- Developed a care coordination platform connecting families of children with physical and developmental needs to verified therapy services.

EDUCATION & FOUNDATION

BITS School of Science and Technology **2024 – 2030**

Bachelor of Engineering (B.E.) in Software Engineering Addis Ababa, Ethiopia

Core coursework: Algorithms & Data Structures, Relational Database Systems, Distributed Systems, Software Design Patterns, System Architecture.

WORK EXPERIENCE

Afro Digital Innovation Labs **Jan 2022 – Aug 2026 · 4 yrs**

Senior Full-Stack Engineer Addis Ababa, Ethiopia · Full-Time

- **End-to-End System Architecture:** Architected and delivered scalable web applications, microservices, and distributed Redis/BullMQ worker queues.
- **API & Database Design:** Designed normalized PostgreSQL schemas, optimized indexing, and built secure, type-safe RESTful APIs with NestJS.
- **Security & Payments:** Built enterprise-grade RBAC authentication, session handling, and localized payment gateway integration with Chapa.
- **Engineering & DevOps:** Streamlined Docker containerization, Linux administration, Nginx proxy configs, and mentored junior engineers.

TECHNICAL SKILLS

Languages:	TypeScript, JavaScript, Python, SQL, HTML5, CSS3, Bash
Frontend:	React, Next.js (App Router), Tailwind CSS, Shadcn UI, Framer Motion
Backend & Queues:	NestJS, Node.js, Express.js, Redis, BullMQ, RESTful APIs, Microservices
Databases & Tools:	PostgreSQL, MySQL, MongoDB, SQLite, Docker, Git, GitHub, Linux, Vercel, Chapa API
Spoken Languages:	English (Professional proficiency), Amharic (Native)
